## JEWEL RIVER CRUISES

### **Welcome to Jewel River Cruise Line An Innovative New Concept in River Cruising**

Our comprehensive new website will be launched in January 2008. During this construction time we would be delighted to help you personally with any queries regarding Jewel River Cruises.

Jewel River Cruise Line will debut in 2008 with six ships sailing in some of the most attractive waterways in Europe. Our collection of river cruise companies features independent brands with a singular mission to provide the highest quality river cruise experience within distinct categories that include: **Jewel River Cruises**, a new boutique-luxury level of river cruising; as well as a premium line and a contemporary line.

At Jewel River Cruise Line we see the potential of river cruising as being so much more than a means of transportation from one beautiful port to another, but rather, a truly experiential way to explore some of the world's most fascinating destinations.

**Jewel River Cruises**, offers a stylish new way to travel. Our first vessel MS Jewel Imperial Blue, will debut in May 2008 with a delightful series of round-trip journeys from Paris and along the River Seine, France. Our newly created level of boutique hotel style river cruising is designed for the traveler who seeks in-depth, authentic exploration in luxurious surroundings. As the only all-suite river vessel, MS Jewel Imperial Blue will accommodate 80 guests in 40 spacious suites. Distinguishing characteristics will include a superior dining experience, engaging shore experiences providing an exceptional level of exclusivity and access, a dedicated wellness spa and co-branding with internationally-renowned luxury partners. The lifestyle of Jewel River Cruises is specially created for our guests; travel designed for the way you live.

*In 2008 the five vessels of the premium and contemporary lines are fully chartered to European Tour Operators.*
